SAFETY CATALOGUE

COMPANY PROFILE

we take immense pride in our ability to produce high-quality textiles that meet global standards. With a strong focus on innovation, efficiency, and sustainability, we have established ourselves as a leading player in the industry.

Our state-of-the-art facility is equipped with advanced machinery and technology, enabling us to deliver exceptional products that cater to the diverse needs of our worldwide clientele. With a dedicated team of skilled professionals, we ensure that every step of our manufacturing process adheres to strict quality control measures.

From sourcing the finest raw materials to implementing rigorous testing procedures, we leave no stone unturned in delivering textiles that exceed customer expectations.

As a company that exports worldwide, we understand the importance of timely delivery and reliable service. Our efficient logistics network enables us to seamlessly ship our products to various destinations across the globe, ensuring that our customers receive their orders promptly and in pristine condition.

Beyond our commitment to manufacturing excellence, we also prioritize sustainability. We actively seek eco-friendly practices throughout our operations, striving to minimize our environmental impact. By embracing sustainable materials, reducing waste, and implementing energy-efficient measures, we aim to contribute to a greener future.

With our unwavering dedication to quality, innovation, and sustainability, we have earned the trust and loyalty of our global clientele. Whether you are in search of textiles for fashion, sports, or industrial applications, our factory is your reliable partner in delivering superior products that meet your specific requirements. Experience the difference of our world-class textiles and let us be your preferred choice for all your textile needs.

Sincerely,
BLACKTHORNWORLD
Company Director

HI-VIS JACKET

06

BTW-1001-1-07

(A)

(A)

BTW-1001-1-07

Description:

High Visibility Softshell Jacket, inner layer in 144 filaments micro-fleece, 335 g/m². Central zipper closure, bottom part of the jacket adjustable with drawstring and detachable hood with zipper and drawstring; detachable sleeves with zipper, cuffs adjustable with Velcro, two muff pockets with zipper closure & chest pocket with zipper.

Three different overlapping layers in Softshell fabric create a unique combination that guarantees high levels of comfort: the polyester micro-fleece inner layer makes the fabric soft and warm, the TPU membrane coupled with the polyester outer fabric allows moisture transpiration and thermoregulation, always keeping the body dry, and making the garment windproof and storm-proof.

HI-VIS JACKET

High Visibility Reflective Taping
Zippered Brushed Tricot Pockets
Reverse Taped Center Front Zipper
Water Resistance Breathability

Description:

Be safe and visible with this high-visibility safety jacket. Built to last, it features a rugged construction that makes it perfect for inclement weather and everyday use. Its high visibility fabrics and eye-popping design are sure to keep you visible at all times of the day, while its insulated and waterproof construction keep you warm and dry in all weather conditions. This parka jacket is ideal for highway road work, construction, transportation, utilities, surveyors, manufacturing, sports, and emergency responders, as well as casual wear where safety is a plus.

Extends lower than regular jackets, delivering enhanced protection to the torso and top of the legs.
Roll up your hood and tuck it into the collar's concealing pocket when not in use to keep it out of the way.
Coated with a water-resistant polyurethane film that seals the fabric, virtually blocking the entrance of rain and wind.
